INVERIC FROM NEWCASTLE.

The British steamer Inveric, with nearly 6000 tons of coal for the Inter-Island Steam Navigation Company, arrived yesterday afternoon from Newcastle. She was 20 days out and had bad weather. Very strong easterly and northerly winds were encountered, with high seas. On February 1 the vessel sighted in Lat. 18 deg. south, Long. 176 deg. east, the British S. S. ENGINEER HAS
YET TO APPROVE

In a letter from General C. Edwards to Secretary Loeb and forwarded to Governor Carter, the former quotes from the Congressional record of January 31 in which Chairman Burton of the Rivers and Harbors Committee spoke as follows relative to the Hilo breakwater:

"For the Hawaiian Islands at Hilo harbor \$400,000 is appropriated and authorized. Here a breakwater to aid and give safe entrance to the only harbor on the most important or at least the most fertile and productive of the Hawaiian Islands was examined and reported at a cost of \$1,700,000. The committee did not think best to recommend all of this amount which it thought will give substantial relief to traffic, fixing a condition that none of the amount is to be expended, unless on further examination it meets the approval of the chief of engineers."
